

post observation notes:

COMMENDATIONS

- very organized intro & reviews
- super use of students to show reviews with your quick reminder of critical elements
- great practice to have teams set ahead of time
- quick transitions!
- great whistle!

RECOMMENDATIONS

When moving from team practice into games, you might want students to sit while you give instructions (may need brief reconstruction here regarding rotation, etc. - review of game rules probably better placed here than before team skill practice)

Student Teaching Goals:

Final Notes:

Excellent teaching Sarah!
Finish strong!
